

OGA2017

THE 16TH ASIAN OIL, GAS & PETROCHEMICAL
ENGINEERING EXHIBITION

E-Show Daily

11-13 JULY 2017

Kuala Lumpur Convention Centre, MALAYSIA

DAY 3

**13 JULY
2017**

The Region's No.1 Oil And Gas Show

FINAL DAY OF OGA 2017 IS TODAY!

Have you attended the show? You still have time to do so today!
Show opens from 10.00am to 5.00pm, make your way to the
Registration Counters located in Level 3 to collect your visitor badges.

OGA was delighted to host Datuk Wan Zulkiflee Wan Ariffin, President & Group Chief Executive Officer of PETRONAS for a tour of the exhibition. He spent some time meeting local & international exhibitors who shared their latest products, innovations and expertise. Datuk Wan also stopped by at MOGSEC 2019 booth and was briefed about the exhibition.

Last chance for you to visit the show! Make your way to KL Convention Centre and see for yourself the best industry players in the Oil & Gas industry.

WHAT'S HAPPENING TODAY

9.00am - 12.30pm

Forum on Women in Energy 2017 (FOWIE 2017) by Malaysian Gas Association (MGA)

Theme : Women - Driving Energy Liberalisation

Venue : 10 On Call, Level 4

For Delegates Only

MGA Member : MYR250.00

Malaysian Registrants : MYR350.00

Rest of the World Registrants : USD100.00

10.00am - 12.00nn

VIP Tour - Datuk Anuar Taib, Executive Vice President & CEO Upstream, PETRONAS

Exhibition Halls

10.30am - 12.30pm

Exhibitor's Presentation - Star Kris Services (Weir Valve)

Hospitality Lounge 2, Hall 2

Title : Selection of Control Valve Trims in Erosive Applications
- Blake Borough X-Stream™ by Mr. Adrian Croft

10.30am - 3.00pm

SUBSEA Malaysia

Hospitality Lounge 4, Hall 4

Register to attend (free of charge)

11.30am - 12.15pm

ThermoMan™ Live Show

Venue : DuPont Booth 7008, Hall 7

2.00pm - 3.00pm

Exhibitor's Presentation - Aerodyne Geospatial Sdn Bhd

Title : Loctite Solution for Oil & Gas Industry

Venue : Hospitality Lounge 2, Hall 2

Speaker : Mr. Kalyan Roychowdury

Daily Visitor Count

DAY 1 - 5,850

DAY 2 - 6,153

TOTAL - 12,003

OGA 2017 DAILY VISITOR LUCKY DRAW

Gifts for the first 2 days have been won. Your last chance is today!
There's also an iPad for a lucky Pre-Registered Visitor who attends the show.

DON'T MISS YOUR CHANCE!

DAY 3 ▶ iPhone 7
▶ Hotel Vouchers

Congratulations to Day 2 Lucky Draw Winners

- ▶ **SAMSUNG S8+**
Shahril Azrin
Sr Mechanical Engineer, Enerflex Global Sdn Bhd
- ▶ **TRADERS KL HOTEL VOUCHER**
Mohd Faizal bin Abu Bakar
Marketing & Operation Engineer,
Solar Alert Sdn Bhd

Organised By:

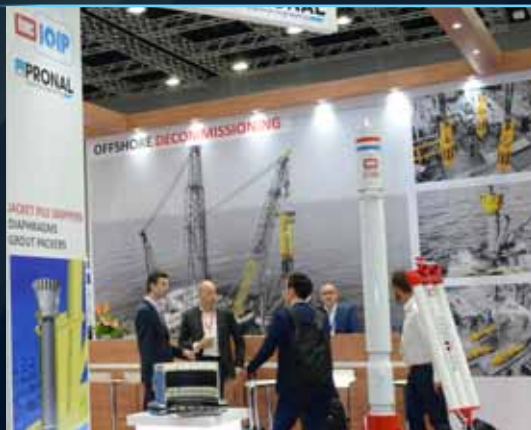

TOSHNIWAL - SCOUTING THE SOUTH EAST ASIAN O&G MARKET

Toshtniwal Hyvac Pvt Ltd is a manufacturer, importer and exporter of Flow measurement and control instruments in the Indian sub-continent since 1948. Having achieved more than 1,000 installation bases across India, their ISO 9001:2008 certified manufacturing units and experienced people have placed the brand in synonym with quality. They work in close partnership with clients and keep upgrading products and processes to stay relevant to the advancing markets.

"We look at OGA as an opportunity to explore and meet various players in the South East Asian Oil & Gas market. We are also showcasing our new product: Additive Injection Block along with our Oval Gear Flow Meters. The Additive Injection Block serve as an effective solution for adding minute doses of additives such as Anti-freeze or dyes to the main fuel line." - Santiago Robin Joseph, Marketing Executive.

VALCO-VALUES-SERVICES

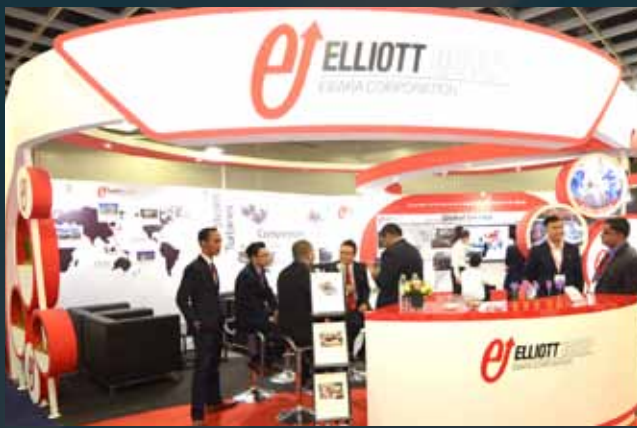

Valco Group, founded in 1949, is specialised in engineering design, production and maintenance of high quality industrial valves, through its brands MALBRANQUE, GUICHON and SNRI.

They propose customer-oriented solutions and are recognised worldwide. They are approved by most of the licensors, end-users and Engineering companies in Petrochemical, Oil & Gas, Refinery, Fine Chemicals, Industry, Nuclear and Power sectors for special valves and tailored-made solutions, using stainless and carbon steels, Duplex and diverse alloys. Their product technology (Gate, Globe and Check valves) are designed and adapted for aggressive, corrosive viscous fluids for the harshest environmental conditions and requirements in exploration, refining and petrochemical processes. In standard or High Pressure up to class 2500, their working range goes from -196°C to +600°C.

On-site maintenance, repair and renewal can be done by their roving "Valco-Valves-Services" teams to guarantee the products initial performance levels, whatever the date of their being firstly put into service. Visit their Booth 4504 in Hall 4, France Pavilion - for more information, brochures and documents.

"We are proud of our long experience and support towards our customers and are grateful for their continual confidence in our safe and unique products." - Gail NOLAN, Resp. Communication/Marketing.

THE WORLD TURNS TO ELLIOTT

Companies around the world choose Elliott Group to design, manufacture and service their critical turbomachinery. For more than 100 years, Elliott has been synonymous with innovative engineering, highly reliable products and unwavering commitment to customer satisfaction. Since 2000, Elliott Group has encompassed the global turbomachinery operations of its corporate parent, Ebara Corporation, headquartered in Tokyo, Japan.

Elliott's engineering and manufacturing centers in Sodegaura, Chiba, Japan and in Jeannette, Pennsylvania, USA produce efficient and reliable rotating equipment, including steam turbines, power recovery expanders and centrifugal and axial compressors. Elliott's global network of full service repair centres, field service teams and sales and support offices extends throughout North and South America, Europe, the Middle East and Asia.

They will be conducting technical presentation session at 2.30pm from 11 - 13 July 2017. Please visit booth 3006.

"OGA is an excellent location for us to promote our products and services and create opportunities to meet our existing and potential important customers."
- Chew Yik Fei, Regional Marketing, Global Service Asia Pacific.

STARTING SOLUTIONS FROM GALI GRUP

Gali Grup Internacional SA from Barcelona, Spain, supplies a wide range of starting solutions for Diesel and Gas Engines running in both Safe and Hazardous areas. Gali Grup supplies starting solutions for engines, starting for engines from 50 up to 12000 KW by offering either Air or Hydraulic starting systems and motors.

Gali Air starters work directly from 30 Bar pressure without the need of using costly pressure reduction valves. The Air Starters are very Powerful with immediate high Torque and require almost no maintenance. Gali Grup is specialised in EX protection for engines and components. Their products such as the Electric Starters, Air Shut Off Valves, Battery Boxes and Alternators can be supplied with Zone I and Zone II Certification.

"Please visit us in Hall 8 on stand number 8005 for a better idea of what Gali Grup can do for you. Your local contact in Malaysia is René Sowald at r.sowald@galigrup.com or at 0060 (0)16 2777 602."

"This is our first participation at OGA but what an overwhelming response from our visitors! It's a great experience to see this." - René Sowald, Business Development Manager SE Asia.

DEDICATED TO PROVIDING QUALITY PRODUCTS AND SERVICES

Impact Special Metals is the international division of Impact Ireland (Metals) Ltd. Over the past 30 years, Impact has grown to become one of Europe's leading nickel alloy and speciality steel stockholders and distributors. Its customers ranges from large multinational corporations to small and medium size public and private companies.

Impact Special Metals distributes a comprehensive range of European sourced materials including nickel alloys, stainless steels, titanium grades and high performance plastics used in the manufacture of precision engineered components for the Oil & Gas industry worldwide. In addition to its speciality grades, they also stock and supply the full range of ferrous and non-ferrous metals, cast iron, heavy wall tubing and engineering plastics. Certification and complete traceability is available for all materials. They also supply many other metals such as aluminium, tool steel, bright steel, black steel, cast iron, chrome plated rods, steel tubes, aluminium bronze, bronze, brass, copper, Ni Resist, UNS-S20910 and high-performance engineering plastics to companies in Ireland, across the EMEA region and the Pacific Rim.

"OGA is a great opportunity for us to meet our current and potential customers in the region. Day 1 of OGA 2017 was very busy for us and we look forward to a successful week." - Eddie Duffy, Area Sales Manager.
