Request offer

Questionnaire for the forklift protection (or similar mobile lifting elements) according to 2014/34/EU-ATEX with activity in potentially explosive zones.

1. Client

Telephone ..... Telefax ..... E-mail.....

Person in charge.....

2. Forklift truck type and capacity

☐ Pallet ☐ Stacker ☐ Electric Counterbalanced ☐ Diesel Counterbalanced ☐ Retractable ☐ Trilateral ☐ Orders Preparer

Models.....

3. Classification of the hazardous area (always indicate the most predominant)

A. GAS/ VAPOUR/ FLAMABLES SUBSTANCES

Zone 1 Possible explosive atmosphere ☐
Zone 2 Sporadic explosive atmosphere

Active Protection * ☐
Passive Protection ☐

Gas Group and temperature class of substances (annex A Norma EN-50014).

Gas
- ☐ IIA
- ☐ IIB
- ☐ IIC Acetylene IIB + H2
- ☐ IIC Hydrogen

Temperatures
- ☐ T1 (450ºC)
- ☐ T2 (300 ºC)
- ☐ T3 (200ºC)
- ☐ T4 (135ºC)
- ☐ T5 (100ºC)

* For active protection specify the exact type of gases .....
.....

B. FLAMABLES DUST

Zone 21 Possible explosive atmosphere ☐
Zone 22 Sporadic explosive atmosphere ☐

Dust
- ☐ Electroconductor
- ☐ NO Electroconductor

List of dusts .....

Request offer

Specify, if know the particular characteristics of the flammable dust.....
.....
.....
.....

4. General information

Duty cycle duration type	..... hours
Average hours of daily use	..... hours
External use	☐ Yes ☐ No
Interior soil type	.....
Exterior soil type	.....
Max. length path in vacuum	..... mt
Max. length laden journey	..... mt
Ramps presence	☐ Yes ☐ No
Ramps slope	..... %
Ramps length	..... mt
Rise in vacuum	☐ Yes ☐ No
Increase in load	☐ Yes ☐ No
Temperature ambience (min-max)	..... ºC

NOTE: Temperature ambience has to be between -20ªC and +40ºC. If it were outside of this range, please indicate new temperature range.

5. Technical notes and observations
